TRAVELING MAN IS SUICIDE VICTIM AT TUCSON

**Buy Revolver to Kill Self But
Changes Mind and Takes Strych-
nine—Poem Found on Body Re-
flects Domestic Trouble That Caus-
ed Tragedy.**

TUCSON, June 3.—No inquest will be held in the case of Fred M. Calvert, of Pittsburgh, Pa., who swallowed strychnine and died at the Windsor hotel this week, according to an announcement by the coroner today. Arrangements for the funeral have not been announced pending word from the man's relatives in Pittsburgh.

Domestic trouble, which arose over the children of his wife by a former husband, and caused a separation, led to the suicide, it is thought. Just when the tragedy occurred is not known, but it is thought that Calvert drank the poison early yesterday morning. A chambermaid who knocked at his door at 3 o'clock yesterday afternoon received no response. The proprietor of the hotel summoned a peered through a transom and saw Calvert's body lying across the bed. At 3:30 o'clock, Coroner Comstock was called and the door of the room was forced. Calvert had been dead some time. Beside his body was an empty bottle that had contained strychnine, and a note across the front page of a note book to "notify Mrs. Oney Mae Calvert, 159 East Pennington street."

According to Mrs. Calvert, who was hastily summoned, she had parted from her husband in the east and had come to Tucson in April to live with her sister. He had followed her here a week ago, and endeavored to effect a reconciliation.

Tuesday evening they attended a theatre, registering later at the Windsor hotel as Mr. and Mrs. William McMillan, of El Paso. She left her husband at 6 o'clock Wednesday morning, she says. At that time, Calvert, who had told her that he had secured a position outside of Tucson, remarked that they might take him home in a "box."

According to the wife the trouble between her and her husband arose over her children by a former marriage. By a prenuptial arrangement he had agreed that in the event that there should be trouble between them on account of the children, he should be the one to go.

That the man may have intended to kill both his wife and himself is indicated by a poem written in his note book as follows:

I have lived this world as best I could
Have had my happy days and all,
But to me now all I can see
Is darkness and misery.
I loved my wife and little home,
The happiest in the world,
Till one day a cloud came o'er it all
And this is what it has brought to me.

I cannot stand to live alone
And wander o'er this world in gloom,
So I am leaving it and taking one I love along.

Recently Calvert purchased a revolver, his wife told the coroner, and had threatened to kill himself, but she had dissuaded him. The revolver was not found among his effects. In his notebook were several other poems and verses all of which were apparently inspired by his love for his wife.

Calvert was 34 years old. He had been a salesman.

Barnes Ill—
W. E. Barnes, traveling freight and passenger agent for the Southern Pacific railroad, has been confined to the company hospital in San Francisco for the past three weeks, according to word received by local friends. He is now reported to be improving, which will be welcome news to his many friends in this section.

CAMPBELL FOR U. S. SENATE

**Republicans May Sidetrack Campbell
and Run Clark for Governor.**

PHOENIX, June 3.—Advancing the theory that E. S. Clark, of Phoenix, will draw the republican ticket in a larger majority of the dry vote than Hon. Thomas E. Campbell, supporters of the Yavapai are quietly talking him up in Maricopa. Recognizing the already well developed strength of the tax commissioner, however, they are trying to make a place for him on the republican ticket as the fall opponent of Henry F. Ashurst for the United States senate.

Oddly enough, both Mr. Campbell and Mr. Clark are of Prescott, and the adjourned session of the republican state convention, which will decide which is to be put forward as the party's gubernatorial candidate this fall will convene in Prescott on July 6.

Thus, the second meeting of the delegates, hitherto regarded as most entirely formal, may develop a contest. For those who are supporting the Clark claims are already talking of a "program."

BALL GAME AT MORENCI SUNDAY

**Morenci Accepts Clifton's Challenge
and First Game With Hill City Boys
Will Be Played at Morenci Sunday**

Smarting from the stinging defeat administered at the hands of the 2nd Infantry a couple of weeks ago, the Clifton ball team are determined to take their revenge out on someone and as a consequence they have centered on their close neighbors and old time rivals, Morenci. The first blood of the season will be spilled on the Morenci diamond Sunday, June 11th, at which time the takers of Clifton's challenge are expected to suffer the worst defeat of their existence at the hands of Riley's Ripsnorters.

The grounds of execution at Morenci have been put in first class condition for the slaughter and it is expected that one of the most ferocious encounters in the history of baseball in the Clifton-Morenci district will be pulled off Sunday. The Morenci boys also have a grievance and have been fretting themselves into a state of nervous prostration over the poetical effusions of a Clifton fan in which they were challenged to the combat. It is understood that they have been practicing night and day for the big battle and Manager Bury and Capt. Shanley are anticipating a never-to-be-forgotten love feast at the close of the strife to commemorate the annihilation of the Clifton bunch.

The Morenci boys are all home players and they guarantee with sufficient team work to clean up anything that opposes them in this section of the country. A good amount of work has been done in getting the Morenci grounds in shape and when finished this will be one of the fastest diamonds in the southwest.

The Clifton team has been reinforced by the arrival of Jennings, who has lately been occupying third base for Lordsburg and who promises to give a good account of himself both at third and with the stick. Another new addition to the team which will greatly strengthen it is the arrival of Eaton from El Paso. He was formerly in the big league circuit playing with Cincinnati and later joining the Texas aggregation. With these additions and the material already at hand there is no doubt but what Clifton will put up a good game the coming season.

A change in the management of the local team has taken place this week whereby Max Juelg, better known as the Fat Kid, has succeeded Pete Riley. The new manager means business from the start and is taking a great deal of interest in the sport and intends to bring out the best there is in the material at hand. He is already negotiating for games with outside teams and some classy ball may be expected in the future.

SAD ACCIDENT TO LITTLE GIRL

**The Six-Year-Old Daughter of Andy
Angle, Near York, Loses Leg from
Effects of Shotgun Wound.**

A sad accident happened near York Sunday as a result of which the little six-year-old daughter of Mr. and Mrs. Andy Angle lost her right limb. The father, in company with the little girl and his son, were out hunting rabbits Sunday afternoon and after bagging a sufficient quantity of the game Mr. Angle sent the children back to the house with the gun, which he entrusted to the care of the boy. After proceeding for some distance the young lad stumbled and fell and in falling the gun was discharged, the entire charge hitting the little girl in the right leg near the knee.

The child was rushed to the A. C. hospital at Clifton where it was found that amputation was necessary, the limb being so injured that several bones protruded and it was all but severed. The little girl bore her suffering bravely and upon reaching Clifton was in a very weakened condition from the loss of blood.

At the present time she is doing as well as could be expected under the circumstances and unless blood poisoning develops her chances for recovery are good. The accident is one which is to be deplored and the parents and little patient have the sympathy of all in their trouble.

FOR ATTORNEY GENERAL

TUCSON, June 6.—Frank E. Curley, former city attorney of Tucson, announced last night that he would be a candidate in the democratic primary for the nomination for attorney general and he will at once launch a vigorous campaign. Mr. Curley is only 39 years old but has been practicing law for 19 years. The first ten years after his graduation from Cincinnati Law School in Kentucky, and since 1907 in Tucson. He was a friend of the late Gov. Goebel of Kentucky, stumping the state for him during the campaign that culminated in the assassination of Goebel.

Mrs. Jno. D. Patty has been visiting Clifton friends this week, arriving from her ranch home on Squaw Creek Saturday evening.

CAVALRY PURSUES VILLA ACROSS BORDER

This photograph shows the Thirteenth cavalry crossing the border line near Columbus, N. M., in pursuit of the outlaw band under Villa.

COUNCIL MEETING TUESDAY NIGHT

**City Fathers Assume New Offices,
Several Petitions Presented to the
Council for Consideration.**

The inauguration into office of the new town council which was to have taken place on Monday night, was postponed until Tuesday evening at which time all town officers assumed their new duties upon the retirement of the outgoing officials.

Upon taking office the new City Council immediately proceeded to business, the first order of which was the selection of one of their number for the office of mayor. This proposition was unanimously conceded to Arthur Slaughter, and hereafter it will be Mayor Slaughter.

Six petitions were submitted to the Council for consideration by the lady voters of Clifton asking for the appointment of Mrs. Deck, lady member of the Council, as president of that body. The petitions were circulated the first of the week and were signed by a large number of names. The women were of the opinion that so long as one of their sex was elected to the council by a good sized vote she deserved the right to be placed at the head of the aldermanic body as president, and their efforts were concentrated on this one object. Upon taking a vote, however, the Council decided upon O. J. Cotey as president of the body.

The town officers now stand, Mayor, Arthur Slaughter; President, of the Council, O. J. Cotey; Members, Mrs. Joe Deck, F. H. Springer, C. W. Young, Richard Stephens, and Walter Tappin, Sr.; Street Supervisor, B. Vandercook; Marshal, G. L. Crawford; Town Clerk, Mat Danephauser.

The new Council lost no time in getting into the harness and several items of business were taken up at their first meeting, chief among which was the question of salaries for the coming term. It was decided that the old salaries should stand as they were heretofore with later a possible raise for the minor employees of the city.

From all indications the new administration stand for everything in the line of betterment for the town and the questions of sewerage, new bridges and adequate fire protection will be taken up by them at an early date and improvements of a substantial nature is expected to be the rule from now on.

The Council also made the following appointments: M. M. Smith, night marshal; Dave Ling town attorney, and Dr. L. A. W. Burch, health inspector.

SEVEN VILLISTAS TO HANG JUNE 9

**Reevie Expires in Six Days; May
Appeal Cases to Supreme Court.**

SANTA FE, N. M., June 3.—The seven Villistas who are under sentence of death for their part in the Columbus raid on March 9, have only six more days left of their respite granted by Governor W. C. McDonald and, unless their cases are appealed to the supreme court, they will be taken back to Deming to be hanged in compliance with the court order at the conclusion of their trial.

There is nothing to indicate that governor McDonald intends to interfere further in the case of the Villistas, and unless the appeal is filed the men will be hanged at Deming June 9. They were to have been hanged on Friday, May 19, but were granted a reprieve by the governor in order that their cases might be thoroughly investigated.

To New York City—

J. F. Nicolls, who has been in New York City for the past two weeks on a business mission, is expected to return to Clifton the first of the week.

FIRE DEPARTMENT RECEIVES MONEY

**Apportionment of \$227.20 Received
from State—Fire Boys to Hold
Meeting on Evening of June 15th**

The Clifton Volunteer Fire Department are this week in receipt of a check for \$227.20 which was received from the State department at Phoenix. Under a new ruling which recently went into effect one per cent of the gross earnings of insurance companies doing business in incorporated towns of 3000 or more population are turned over to the state. The state then apportions such money available to the incorporated towns of more than 8000 population and the amount is turned over to the fire departments of each town to be used by them as they deem necessary. Clifton's apportionment from this source was the check for \$227.20 which has been deposited to the credit of the local department, and the disposition of the fund will rest in their hands.

The local fire boys will hold a meeting at the Town Hall on the evening of June 15th for the purpose of electing officers and making arrangements for practices to be held for the Fourth of July and Labor Day races which will be held during these two big celebrations. Interest in the organization has been in a comatose condition for some time but with the newly acquired donation and the coming races to be held on July 4th and Labor Day, the boys are beginning to sit up and take notice and from now on will take a renewed interest in the affairs of the association.

The question of a new up-to-date motor fire truck has for some time been discussed by members of the fire association and interested parties on the outside, and it is likely that in the near future the apparatus will be acquired. The outfit would consist of a motor truck which would accommodate a sufficient quantity of hose and chemical fire extinguishers for all purposes. The new apparatus would necessitate the services of a paid fireman to stay with the machine night and day and thus give the people better fire protection than they have ever had before. With one of these trucks in commission in the past many of the disastrous fires we have experienced might have been checked at the beginning and a great property loss saved to many individuals.

This question will probably be threshed out at the coming meeting and if the way is made clear for the purchase of the machine it will be one of the best investments that could be made by the city.

FEDERATION OF MINERS TO VOTE

The members of the Miami union of the Western Federation of Miners will vote today for the officers of the Miami union, and for the international officers of the Western Federation of Miners. The election booths will be open from 9:00 a. m. until 9:00 p. m., and in that time all who are qualified to vote will have a chance to cast their ballots for both the local and international officers.

The men who are running for office on the international ticket are: for president of the W. F. of M., George Powell and Charles Moyer; for vice-president, J. B. Rankin and Dean W. Selfridge; for secretary-treasurer, Ernest Mills and George Dingwall; for members of the executive board, William Davidson, Alfred Borden, Guy E. Miller, Yancey Terzich, J. C. Williams, William A. Burns, Jesse M. Scott, Wellington J. McLeod, Joe Ballinger, and James Giambruno; for delegates to the American Federation of Labor, P. J. Reardon, Charles Moyer, Joseph D. Cannon, Augustus F. Lindemann, James Roberts, Charles Tanner, and J. C. Williams.

A BIG CATTLE SHIPMENT MADE

Clifton has this week been full of cowpunchers and cattlemen, who as usual have made things lively for several days. They arrived in town Saturday evening accompanying a large drive of cattle from the Blue and Eagle country which were shipped to points in Texas the first of the week. The herd contained cattle from several shippers from the northern end of the county and is the largest which has been driven down 'Frisco' for some time, the bunch consisting of some 1500 head.

The herd spent Saturday night a short distance above Clifton and about six o'clock Sunday morning was moved down the 'Frisco' to the pens at North Siding to the yells of the cowboys and the numerous noises attendant upon such an occasion. The cattle arrived here in good condition and were loaded into the cars for shipment Monday.

Those who had an interest in the shipment included J. H. T. Cosper, Geo. Montgomery, John D. Patty, Dick Miller, John Brown, John Fillman, Schwab, Sutherland, Gatlin, Zumwalt, Dud Elrage, Stacey and Laney. The cowmen report that the range is in good condition regardless of the hot winds which have prevailed for several weeks and that water on the Blue Range and in the Eagle section is abundant, and they all look for an exceptional year for the cattle interests.

As a windup for their long drive the cowboys gave a dance to their Clifton friends at the Princess on Tuesday night which was attended by a large crowd. The boys whooped it up until a late hour and those present will long remember their hospitality. Adams' orchestra furnished the music while Bill Gatlin acted as floor manager for the hosts and did the honors in a masterly style. Square dances, the puncher's delight, predominated and in these the boys were at their best, their stiff joints seemed to be automatically loosened and what they did to the different figures showed them to be past masters of the Terpsichorean art. In these dances Bill Zumwalt showed brilliantly as caller and to him is due a great deal of credit for the success of the affair.

The dance, although being a rather impromptu affair was nevertheless heartily enjoyed by everyone and they hope the boys will repeat the dose upon their next visit to Clifton.

MISS MARKS PASSES AWAY

**Matron at Arizona Copper Company
Hospital Succumbs After Short Ill-
ness—Body Shipped to Berkeley,
California for Interment.**

News of the death of Miss Mary Marks, matron at the A. C. hospital, early Monday morning was a distinct shock to her many Clifton friends. The announcement came as a surprise to many as her illness was of short duration and her death was not expected. She was afflicted with peritonitis and it was this which caused her demise.

The remains were taken to the Pascoe Undertaking Parlor and prepared for shipment to her old home in Berkeley, Cal. Dr. T. B. Smith accompanied the body to Los Angeles Wednesday morning where it will be met by a sister of the deceased and from there taken to Berkeley for interment.

Miss Marks came to Clifton about seven years ago from California and accepted a position as nurse in the Arizona Copper company hospital, later taking charge of the nursing staff as matron. Through her kindly disposition and pleasant personality she soon gained a wide circle of friends to whom she endeared herself to the end and who will ever remember her with the kindest of thoughts. She always took an active part in social affairs, as much as her duties would allow, and her cheerful presence will be sadly missed by these friends with whom she was most popular.

In her profession her cheerfulness and loving disposition did much toward the recovery of those who were entrusted to her care and these kindly attributes gave comfort and hope to many a body racked with pain, and acted as a sedative to the nerve shattered patient. In the passing of such a character the suffering have lost a valuable friend while those left behind, among whom she numbered friends by the score, will feel her loss immeasurably.

In the passing of Miss Marks the whole community mourns the taking away of a good and noble woman whose mission in life was to relieve suffering and bring a ray of sunshine into the lives of the afflicted.

HOME FOR EVERY RURAL TEACHER IN ARIZONA

**Lumber Manufacturers Association
Plans Gigantic Enterprise—Will
Make Plan Universal and Arizona
Will Come First**

The biggest, most universal scheme for social service in the history of America, one affecting every hamlet in the land has been instituted by the National Lumber Manufacturers' Association, in the proposal to build a home for every rural school teacher in America.

Arizona will be one of the first states where the plan will be carried into effect, and a thorough investigation of the conditions in that state preceded the announcement of the social service plans of the lumber manufacturers. The association has not as yet formulated its plans for pushing this new department of public service by actually assisting the schools of the nation to build homes for teachers, but work on this philanthropic enterprise is already under way and the association plans to have its plans ready for announcement in a few weeks.

The plan to spread the gospel of homes for school teachers over the land was first broached only a few weeks ago at a conference of the directors of the association. It proved instantly popular. The idea was taken up by the United States Bureau of Education, and the first result of this co-operation between the lumbermen of the nation and the government itself is in the issuance of a brochure entitled "Teachers' Cottages," by R. S. Kellogg, of Chicago, secretary of the National Lumber Manufacturers' Association, in co-operation with the United States Bureau of Education, and which is being sent to every county superintendent of schools in America. The Rockefeller Foundation has already approved of the plan and is giving \$25,000 to foster this work with more money to come.

The proposal to build these teachers' cottages all over the land, follows out the idea that has already been carried into extensive success by the state of Washington.

The national association has taken up this social service work in the belief that the education of the nation will be immensely advanced if the teachers of the nation's young are properly housed. The theory is that if teachers are provided with proper homes, the country districts will be able to secure better teachers, avoid the constant changes by which the schools are always in a torn up condition. As secretary Kellogg phrases it in this work, which constitutes a survey of the movement and its possibilities.

Arizona is selected as one of the first states for the general introduction of this new idea of a teacher's cottage for every rural school, because though it has already made good progress, there is still vast room for improvement.

Elks Initiate—

Clifton Lodge No. 1174 B. P. O. Elks at their regular meeting on Wednesday night initiated several candidates into the order. A large attendance was present and at the conclusion of the initiation and ceremonies the members did justice to an excellent banquet. Those who were made full fledged members of the order were W. M. Shirk, W. F. Burns, J. M. Kilsby, J. R. Shanley, Jr., C. M. Quinn, J. J. Webster, G. D. Tessier, Pickens Anderson and Henry White. At this meeting the question of a local Elks home, was brought up and thoroughly discussed. It is the intention of the Clifton Elks to build a meeting place of their own at a cost of some \$30,000 and the question has been brought up from time to time but now the members have taken a renewed interest in the subject and plans are going to be pushed for the erection of the building. It is thought that the new home will be erected on the vacant lot next to the Sirlanti building which would be centrally located and an ideal place for such a purpose.

FATAL SHOOTING AT GLOBE, ARIZ.

**William Sparks, a Prospector, Kills
Frank Thompson, Mining Man.**

GLOBE, June 3.—A dispute over mining claims that began seven years ago between Wm. Sparks, a pioneer prospector and former sergeant of the Arizona rangers, and Frank Thompson a wealthy mining man, terminated on the main street of Globe today, when Sparks shot and killed Thompson.

The old prospector was standing on the street when he noticed Thompson approaching. He drew an automatic revolver and shot five times. Each bullet was effective.

Sparks surrendered to the authorities and stated he shot because Thompson had been threatening his life.
